Grundlæggende Programmeringsviden

Er du "web native"?

- Er du nysgerrig på, hvad der foregår i en browser, når en webside renderes?
- Vil du kunne bygge web apps og websites med de nyeste frontend frameworks – og samtidig have en god forståelse for de grundlæggende programmeringsmæssige principper?
- Vil du dykke dybt i client/server arkitekturen, og lære at skrive kode både til browsere og servere?
- Vil du forstå databaser – både SQL og NoSQL – og lære at strukturere data og eksponere det igennem et API? Og bruge data der kommer fra et API?

## **1. semester: Webudvikling**

**Webudvikling** (25 ECTS), hvor vi arbejder med backendprogrammering, frontendprogramming, databaser og interaktions- og oplevelsesdesign.

**Web app** (5 ECTS), hvor vi arbejder med sammenhænge fra krav til drift af webapplikationer.

## **2. semester: Avanceret webudvikling**

**Avanceret Webudvikling** (10 ECTS)

**Valgfag** (20 ECTS):

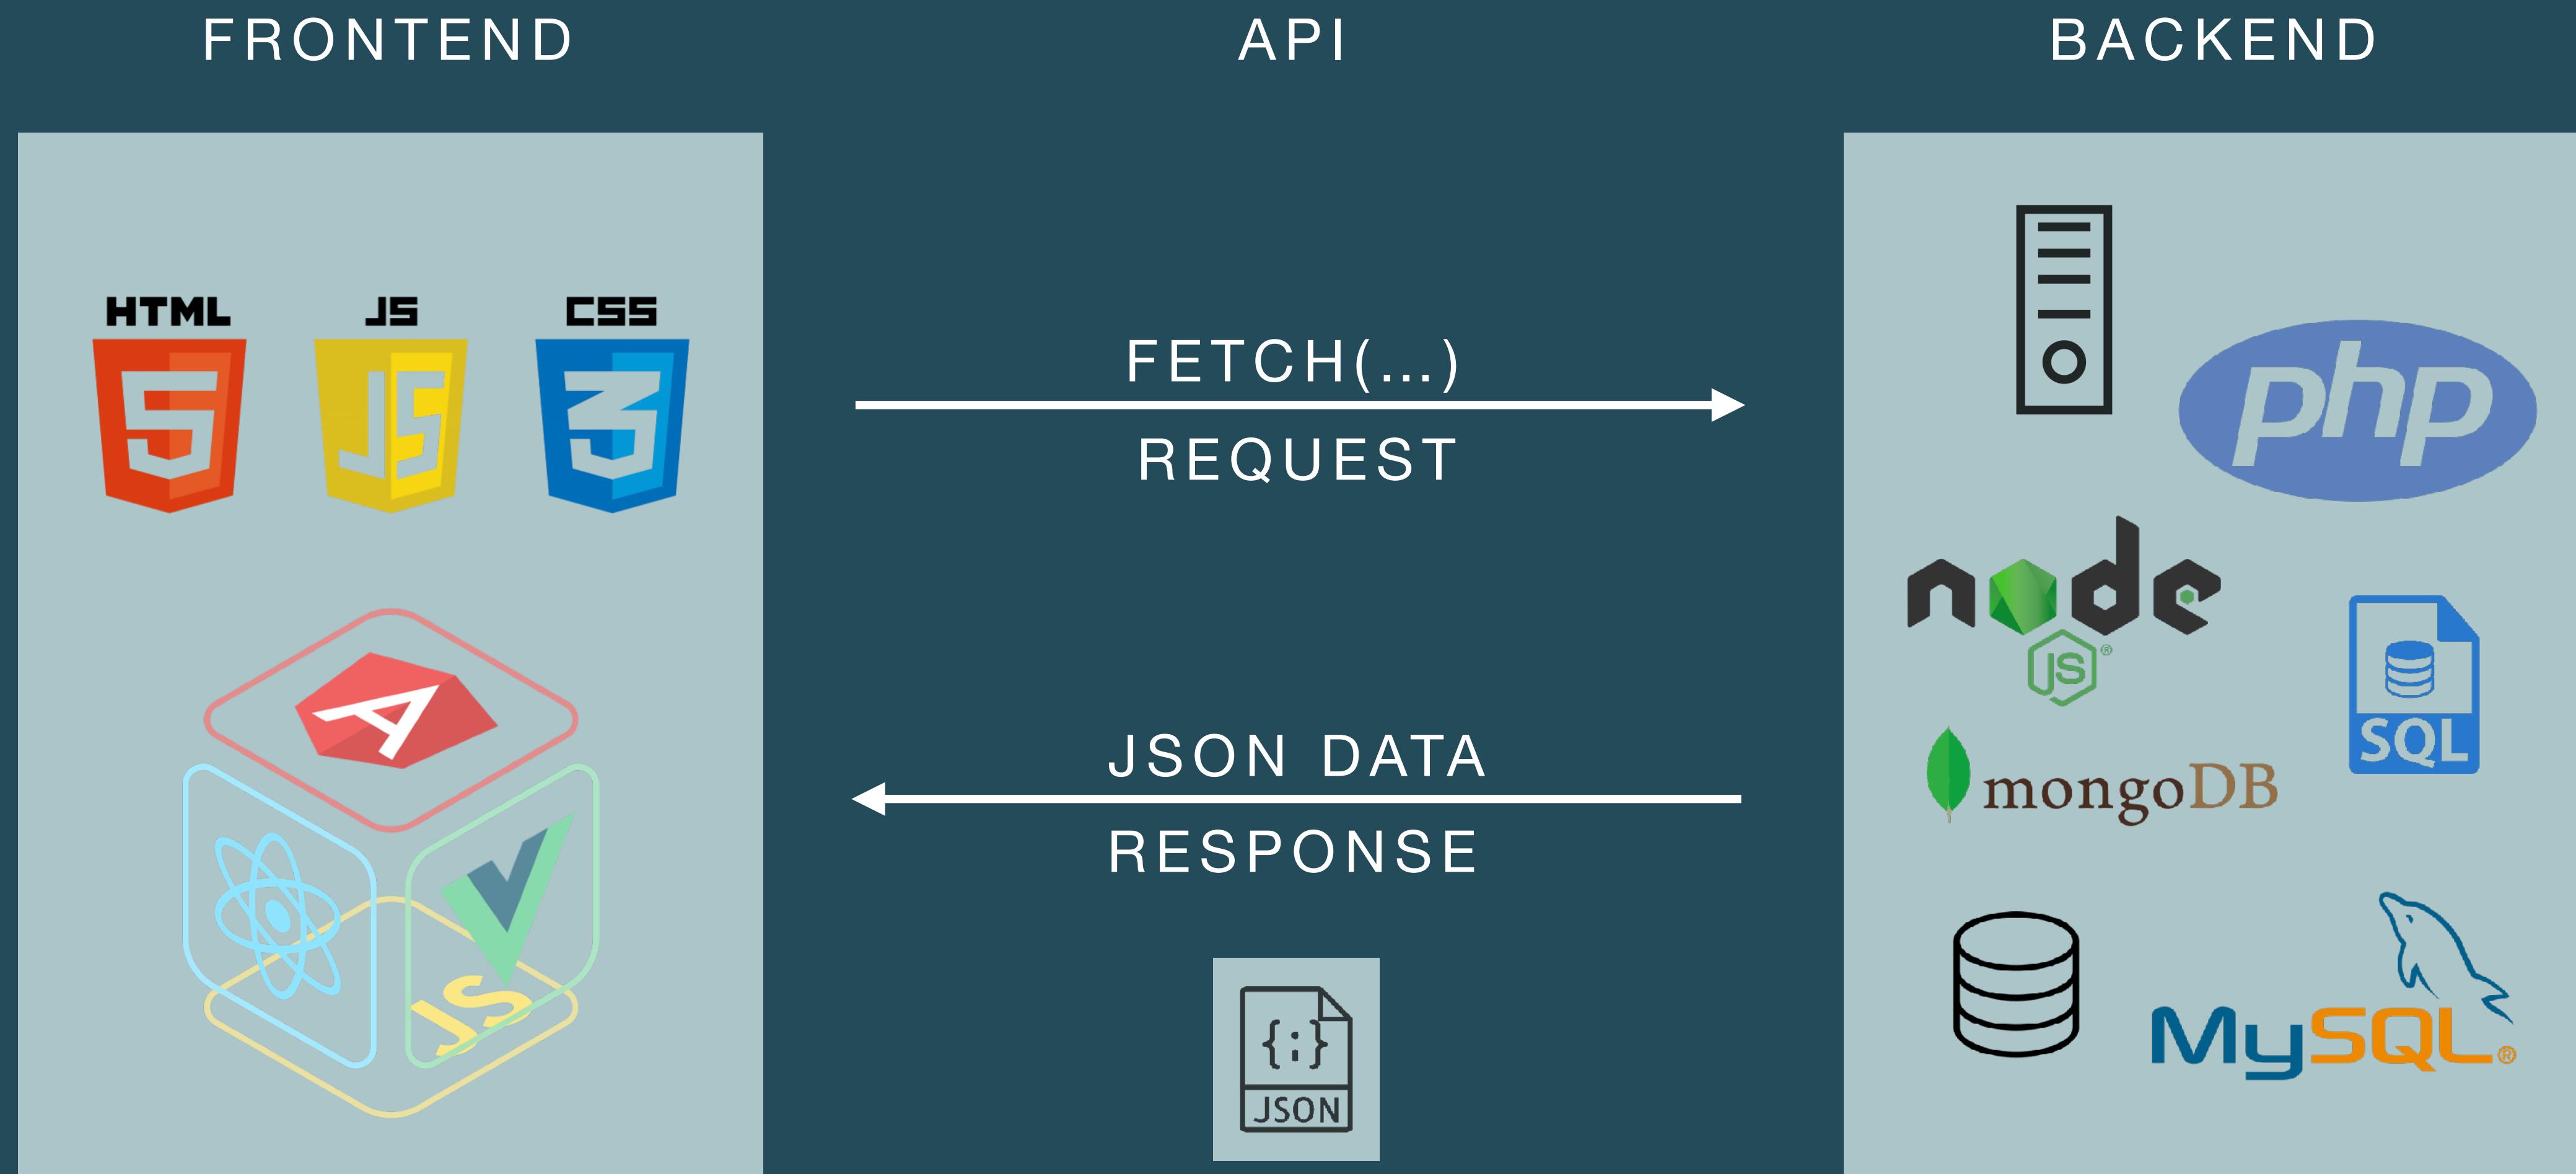

- Brugercentreret Applikationsudvikling
- Smart Solutions
- Creating Immersive Entertaining Experiences

## **3. semester: Webudvikling i praksis**

**Praktik** (15 ECTS)

**Bachelorprojekt** (15 ECTS)

# Webudvikling

**Webudvikling** (25 ECTS), hvor vi arbejder med backendprogrammering, frontendprogramming, databaser og interaktions- og oplevelsesdesign.

**Web app** (5 ECTS), hvor vi arbejder med sammenhænge fra krav til drift af webapplikationer.

- Design af gode brugeroplevelser og user interfaces
- Grundlæggende programmeringsforståelse
- Backend: PHP og MySQL fra bunden
- ...som eksponerer JSON data via et API interface til:
- Frontend: som fetch'er JSON og viser det med HTML, CSS og vanilla JS – eller React

## 1. semester: Webudvikling

**Webudvikling** (25 ECTS), hvor vi arbejder med backendprogrammering, frontendprogramming, databaser og interaktions- og oplevelsesdesign.

**Web app** (5 ECTS), hvor vi arbejder med sammenhænge fra krav til drift af webapplikationer.

- Gruppeprojekt som afslutning på semestret
- Pensum bindes sammen i et udviklingsprojekt, som kan demonstreres til eksamen – et backend API der udveksler data med en frontend klient

# Redesign - Web App

## 2. semester: Avanceret webudvikling

**Avanceret Webudvikling** (10 ECTS)

**Valgfag** (20 ECTS):

- Brugercentreret Applikationsudvikling
- Smart Solutions
- Creating Immersive Entertaining Experiences

# JAVASCRIPT ALL THE THINGS!!1!

## 2. semester: Avanceret webudvikling

### **Avanceret Webudvikling** (10 ECTS)

#### **Valgfag** (20 ECTS):

- Brugercentreret Applikationsudvikling
- Smart Solutions
- Creating Immersive Entertaining Experiences

Fagelementet ser på applikationsudviklingen i forskellige kontekster og udformninger. Der arbejdes med mobile applikationer, progressive applikationer samt brug af forskellige teknologier, der kan integreres i løsningerne som f.eks. XR, AI osv. Fagelementet tager udgangspunkt i en forståelse af brugerens behov og skaber med anvendelse af relevante frameworks og teknologier en optimeret og testet løsning.

The screenshot shows a candidate profile on the candidate.dk platform. At the top, there's a navigation bar with links for Candidates, Login, and Sign up. Below the navigation is a dark header section featuring a large white logo 'CB' and the text 'Multimedia Designer Front-End Developer'. On the left side of the main content area, there's a circular profile picture of a young man, Daniel Berger. Below the picture, his name is displayed. To the right of the profile picture, there are two buttons: 'Portfolio' and 'Contact me'. Underneath these buttons is a section titled 'Skills' containing several skill tags: UX, Graphic design, Frontend development, Video, and Intercultural skills. Below the skills section is another titled 'Tools & Programs' with tags for Figma, VS Code, Adobe After Effects, HTML & CSS & JS, Adobe Photoshop, Git & GitHub, Adobe InDesign, and Adobe Illustrator. Further down, there's a section titled 'Description' with a detailed paragraph about Daniel's creative background and passion for solving real-world problems. Another section titled 'Education' lists 'Digital Concept Development'. At the bottom, there are three cards for 'Featured projects': 'PhanTribe - Startup Company', 'Project Bose', and 'Project Smokepins ApS'. Each project card includes a small thumbnail image and a brief description.

# Kandidatportalen

til vores studerende

[candidate.dk](#)

# Kandidatportalen

- Kollaborativ udvikling af brugervenlig web app.
- Anvendes af rigtige brugere.
- Deployes til produktion.
- Og videreudvikles uden at blive smadret 💩

The screenshot shows a web browser displaying the Candidate.dk website. The URL in the address bar is `candidate.dk/candidates?Skills=64f639b5d73a9acb15454301&candidateType=internship&searchQuery=`. The page title is "Candidate.dk Candidates for Digital Internships and Jobs".

The interface includes a navigation bar with "Candidates", "Login", and "Sign up" links. Below the navigation is a filter bar with three tabs: "Internship" (selected), "Part Time", and "Full Time". There is also an "Anonymize" toggle and a search bar.

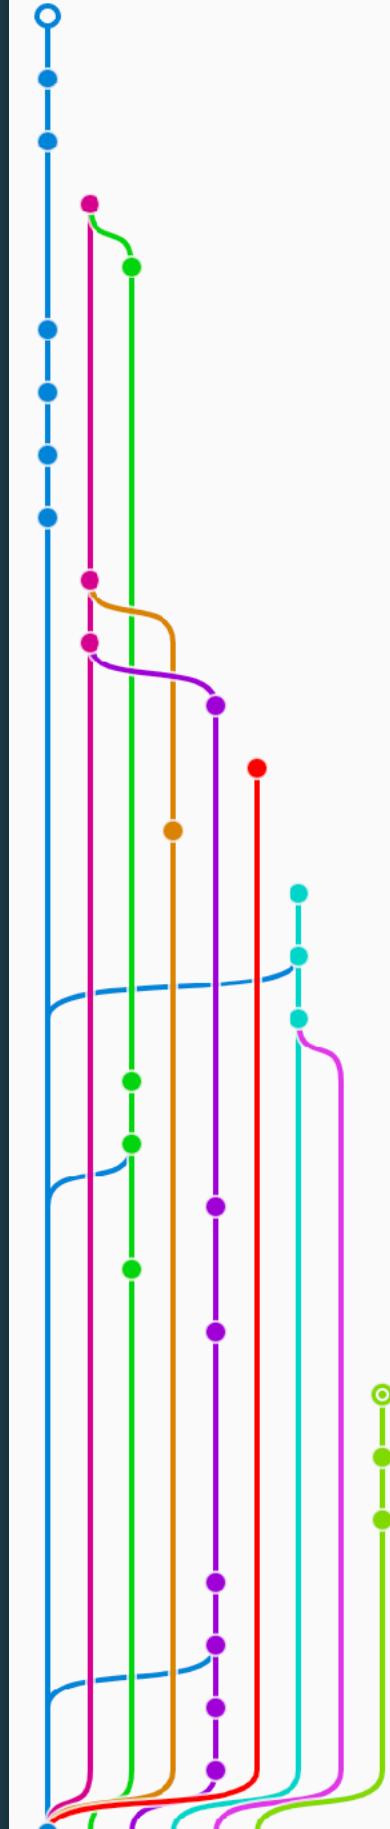

The main content area displays a list of candidates. The first candidate is "Maja, Multimedia Design", looking for an internship from 08.01.2024 to 15.03.2024. Her profile includes:

- Skills: E-commerce, Copywriting, Photography, Illustration, User Research, Frontend development (checked), SEO, Online Marketing, Graphic design, UX, User testing, Project Management, Storytelling, SoMe, Web asset optimization, Prototyping, Backend development, Video, Intercultural skills. A "Show less" link is present.
- Programs: Adobe Illustrator, Adobe Photoshop, Figma, Figjam, Git & GitHub, HTML & CSS & JS, VS Code, WordPress.
- A bio: "I bring energy, creativity, and a positive attitude to everything I do. Whenever I'm snowboarding, crafting something new, or sharing the excitement of F1 races with my friends, I'm all about living life to the fullest."

The second candidate is "Jarl, Multimedia Design", looking for an internship from 08.01.2024 to 15.03.2024. His profile includes:

- Skills: UX, User testing, Prototyping, Project Management.

## Golden Candidates Scrum Board

Backlog | By priority | By size | Companies Global | Issues in hierarchy | + New view

Filter by keyword or by field

New 8

- golden-candidates #183 Unintentional refresh on /candidates bug
- golden-candidates #191 Design: General Details candidates
- golden-candidates #192 Design: Additional Details candidates
- golden-candidates #193 Design: Skills and programs candidates
- golden-candidates #194 Design: Attachments candidates
- golden-candidates #195 Design: Timeline candidates
- golden-candidates #197 Candidate page design candidates Epic
- golden-candidates #199 Expand candidate model - external links candidates feature

Product backlog 11

- golden-candidates #182 Authorization on /candidates Story
- golden-candidates #155 Admin Epic
- golden-candidates #151 Component: Autocomplete Select feature global
- golden-candidates #132 Landing page feature global
- golden-candidates #57 Component: Companies List candidates feature
- golden-candidates #156 Update list of skills and programs Story
- golden-candidates #58 Header - Nav Large feature global
- golden-candidates #18 Component: Event Calendar feature global
- golden-candidates #10 Verification route - email and verify feature global
- golden-candidates #4 Set up Playwright for e2e testing Add item

Sprint backlog 4

- golden-candidates #129 Edit profile Epic
- golden-candidates #126 Auth Epic
- golden-candidates #50 Edit: Attachments Medium candidates feature global
- golden-candidates #198 Upload images to Cloudinary candidates feature

In progress 4

- golden-candidates #176 Update design for candidates page
- golden-candidates #135 Signup Story
- golden-candidates #44 Create global data schema Large feature global
- golden-candidates #187 Project Slider - New design candidates feature

In review 5

- golden-candidates #96 Component: Filterbar #179 companies feature
- golden-candidates #127 Route: my-profile #173 candidates feature
- golden-candidates #51 Edit: Video Small candidates feature
- golden-candidates #91 Utility: Bookmark #177 companies feature global
- golden-candidates #188 Modal - Close btn #189 candidates feature

Done 66

- golden-candidates #134 Authorization #154 Story
- golden-candidates #64 Sprint cake 1/3 Large X-Large bug
- golden-candidates #15 Component: Sign up form - Candidate & Company #153 #160 feature global
- golden-candidates #113 candidates search result amount companies
- golden-candidates #5 We need cake bug
- golden-candidates #40 Utility: Button component Small #72 feature global
- golden-candidates #41 Utility: Modal Medium #82 feature global
- golden-candidates #42 Utility: Input/Textarea with label Small #71 feature global
- golden-candidates #77 Watch emails and programs routes from projects Small #80 bug candidates
- golden-candidates #20 Add item

## 2. semester: Avanceret webudvikling

### **Avanceret Webudvikling** (10 ECTS)

#### **Valgfag** (20 ECTS):

- Brugercentreret Applikationsudvikling
- Smart Solutions
- Creating Immersive Entertaining

Specialiseringen Smart Solutions dækker over en bred vifte af teknologier, hvor der både arbejdes med mulighederne ift. forretning, men også konceptmæssigt i de nye teknologier, ligesom der arbejdes med at kunne udnytte teknologien.

I samspil med en konkret virksomhed udvælges de specifikke teknologier, som der arbejdes med.

Samspillet med en konkret virksomhed udmønter sig i et projekt der danner baggrund for dels forståelse for mulighederne – både teknologisk og forretningsmæssigt, og dels for selve eksamen.

## 2. semester: Avanceret webudvikling

### **Avanceret Webudvikling** (10 ECTS)

#### **Valgfag** (20 ECTS):

- Brugercentreret Applikationsudvikling
- Smart Solutions
- Creating Immersive Entertaining Experiences

Fagelementet omhandler analyse, evaluering, at skabe indhold og producere underholdende UX- projekter, der bruger interaktive medieteknologier. Interaktive medieteknologier relaterer til UX af kanaler og medier, der kan omfatte interaktive platforme som web, auditive og sociale medier og enheder som skærme, augmented reality og virtual reality.

[...]

Efter en kort introduktion af det udvidede begreb om brugeroplevelser er der en studietur til verdens mediehovedstad, New York City, for at indsamle empirisk og inspirerende materiale samt at samarbejde med det belgiske akademi, Thomas More. Her vil der i det samarbejde være online undervisning i Belgien.

- Ligesom på Multimediedesigner eller Datamatiker får du på Webudvikling anledning til at afprøve og videreudvikle dine kompetencer i et 10 uger langt praktikforløb.
- En værdifuld mulighed for at indgå i et professionelt samarbejde med andre udviklere.
- Og en god måde at udvikle sit netværk og skabe gode kontakter både i forhold til bachelorprojekt-samarbejde, men også senere jobsøgning.

### 3. semester: Webudvikling i praksis

**Praktik** (15 ECTS)

**Bachelorprojekt** (15 ECTS)

- Uddannelsen afsluttes med et bachelorprojekt, hvor du får mulighed for at gå analytisk og metodisk til værks og dykke dybt ned i en faglig problemstilling
- Tit laves projektet i samarbejde med en virksomhed, oftest praktikvirksomheden
- Du får anledning til at vise hele din bredde som webudvikler
- Eksempler: Re-implementering af administrationssystem i NextJS, udvikling af en browser extension, implementering af Single Sign On i Vue, konvertering af større kodebase fra JavaScript til TypeScript

### 3. semester: Webudvikling i praksis

**Praktik** (15 ECTS)

**Bachelorprojekt** (15 ECTS)

# Overvej dine fremtidsmuligheder

Interesser? Passion?

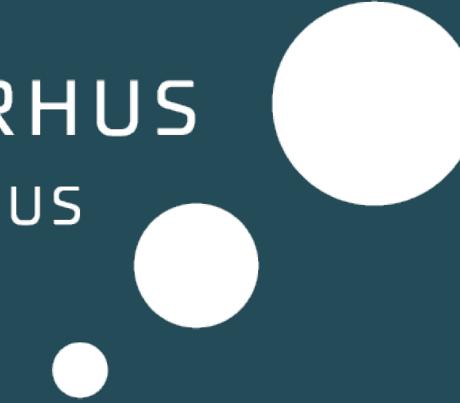

Studier? Job? Løn?

# I can teach everyone how to code

... as long as you are eager to learn
